Airfoil Balancing Clips

Standard (17 Series)

- A** Width
- B** Depth
- C** Throat

3/4" Throat Size, White Zinc Plated

Airfoil blades have a cross sectional view like an airplane wing. Air movement is created upon rotation and two dimensional flow over the blade. These clips are designed with a wider throat than our other clips to accommodate the shape of an airfoil blade and have barbs to help secure them in place.

Sold in packs of 10, or in bulk.

Volume Pricing is available on quantities of 300 clips or more. We also offer a full set of air foil balancing clips .

SKU	Weight (ounces)	Width A	Depth B	Throat C
AFC-125	0.125	.625"	1"	.75"
AFC-25	0.25	1.125"	1"	.75"
AFC-50	0.50	1.50"	1"	.75"
AFC-100	1.00	2.50"	1"	.75"
AFC-150	1.50	2.50"	1"	.75"
AFC-200	2.00	2.50"	1.25"	.75"

Airfoil Balancing Clips

Extra Wide Teflon (18 Series)

A Width

B Depth

C Throat

1.2" Throat Size, White Zinc Plated, Teflon Coated

Airfoil blades have a cross sectional view like an airplane wing. Air movement is created upon rotation and two dimensional flow over the blade. These clips are designed with a wider throat than our other clips to accommodate the shape of an airfoil blade.

They have barbs to help secure the clips in place, and the coating blends well with dark blades.

Sold in packs of 10, or in bulk.

Volume Pricing is available on quantities of 300 clips or more. We also offer a full set of air foil balancing clips .
